

Five Benefits

of **inovah** Enterprise Revenue Management

Simplify Operations

Automate and increase controls on payments and revenue. iNovah's consistent workflow saves time when recording deposit and ledger activity. Simplify operations for your revenue and finance departments.

Real-time Reporting

Real-time reporting at your fingertips. From payments to ledger activity and trend data, use iNovah's 100+ delivered reports to drill down from summary to transaction for a 360° view of your organization's activity. Customize and schedule your reports to best fit your needs.

Perfect Payments

Never misapply or spend time on orphan payments again. With real-time payments and posting, your systems are always up to date. Account balances are always available through iNovah.

Electronic Finger Print

Take the worry out of auditing. iNovah's undeniable audit trail automatically tracks payments from start to finish, including all system activity.

One Source for the Truth

Let iNovah become your hub for all payment channels and enterprise revenue activity. Research, consolidate and manage payments in one centralized location.
